

## **WordPress Technical Specification**

<<08> <04>, <2016>>

Version <<1.000 >>

**FOR**

**M RYAN HUNEIDI**

**PROFILE: Wordpress Developer**

## Virtual Employee

### Author(s)

1. Dharmbir Singh
2. Sanni Poriya

This document will help you to understand the manual configuration of each Wordpress website with version 4.5.2. Also we have given option in admin panel to shut down or up the any application. Also it will covered all the possible Test Cases as per below table:

### Approval / Revision History

App Name	Technology Type	Domain Name(Rackspace)	Reviewed By	Status
MINK	Wordpress (4.5.2) - PHP Version 5.3.3	104.130.26.185/MINK	Dharmbir Singh & Sanni Poriya + Vishal Kain	Completed with Testing
WSPR	Wordpress (4.5.2) - PHP Version 5.3.3	104.130.26.185/WSPR	Dharmbir Singh & Sanni Poriya + Vishal Kain	Completed with Testing
ISPR	Wordpress (4.5.2) - PHP Version 5.3.3	104.130.26.185/ISPR	Dharmbir Singh & Sanni Poriya + Vishal Kain	Completed with Testing
AIR	Wordpress (4.5.2) - PHP Version 5.3.3	104.130.26.185/AIR	Dharmbir Singh & Sanni Poriya + Vishal Kain	Completed with Testing
CAPS	Wordpress (4.5.2) - PHP Version 5.3.3	104.130.26.185/CAPS	Dharmbir Singh & Sanni Poriya + Vishal Kain	Completed with Testing
SWPRA	Wordpress (4.5.2) - PHP Version 5.3.3	104.130.26.185/SWPRA	Dharmbir Singh & Sanni Poriya + Vishal Kain	Completed with Testing
Practice Link(journal)	Wordpress (4.5.2) - PHP Version 5.3.3	104.130.26.185/journal.practicelink	Dharmbir Singh & Sanni Poriya + Vishal Kain	Completed with Testing

# I OVERVIEW

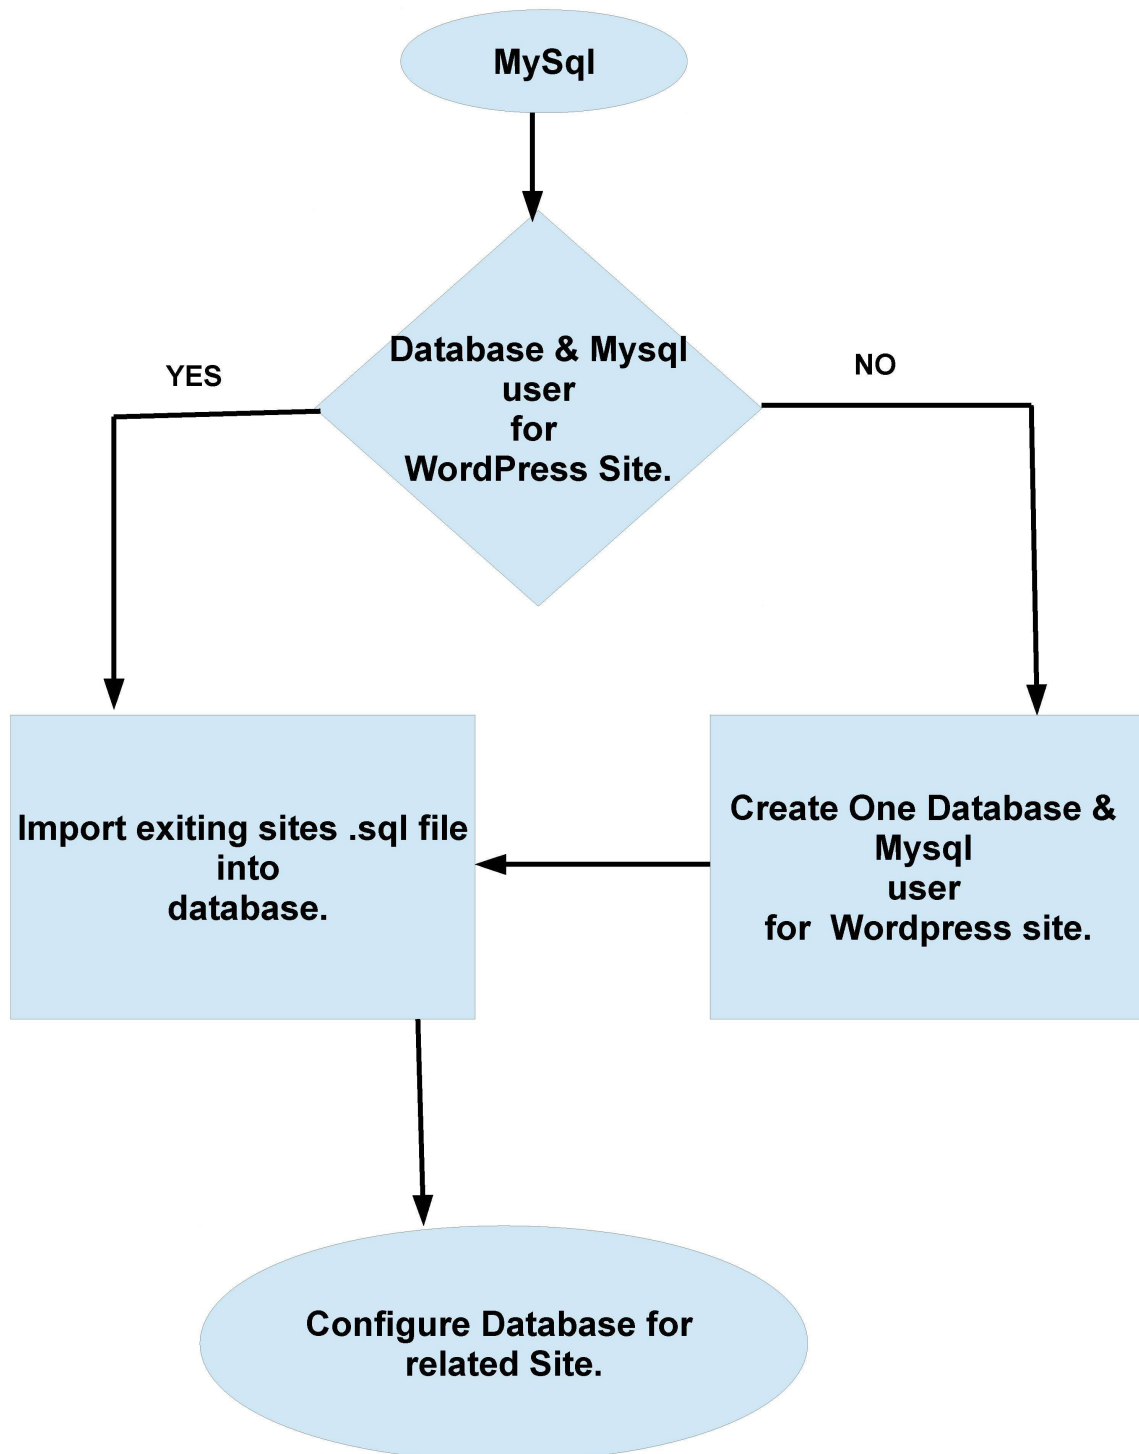

## 1.1 Application Architecture

The application Architecture flow diagram is applicable for all the projects that are currently setup on the Linux server.

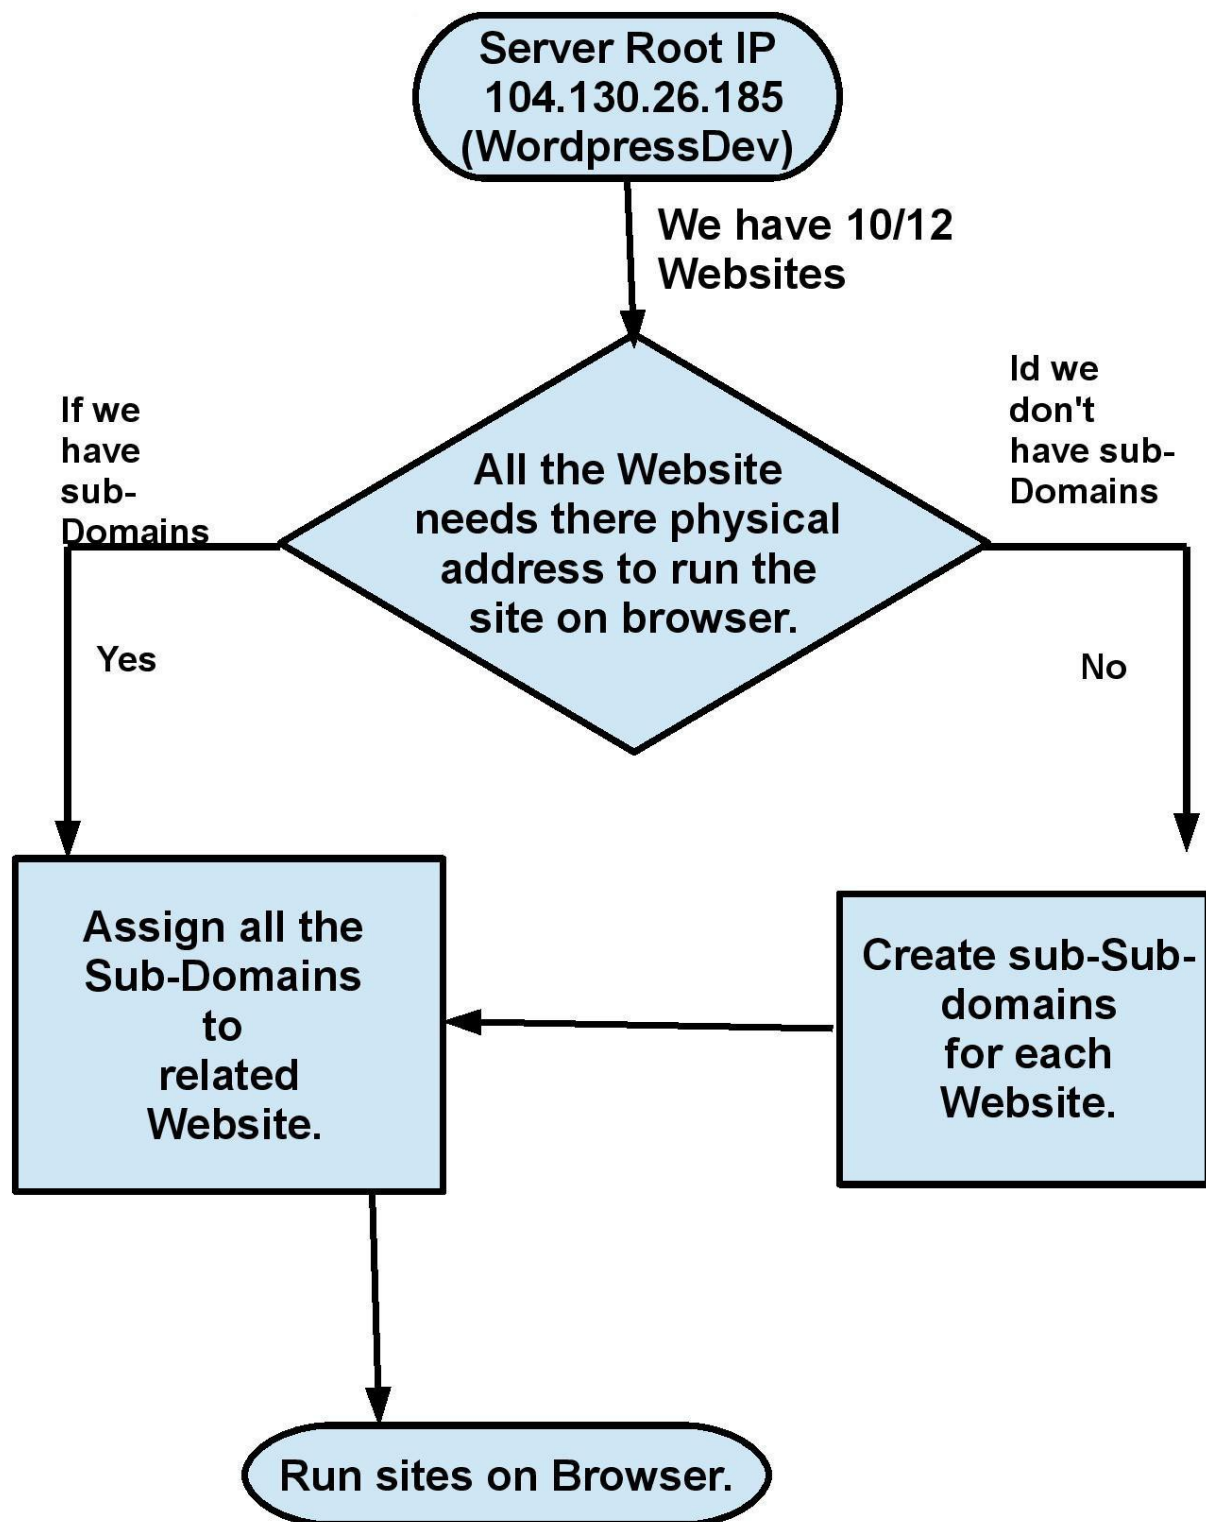

## 1.2 Database Architecture

The Database Architecture diagram is the common for all the metioned application in this document.

### 1.3 Network Diagram

The Network diagram is also applicable all the applications that are currently running on the Linux server.

## 2 UPLOAD EXISTING FILES ON SERVER

Below are the steps to upload the files on the Linux server for each existing wordpress installation.

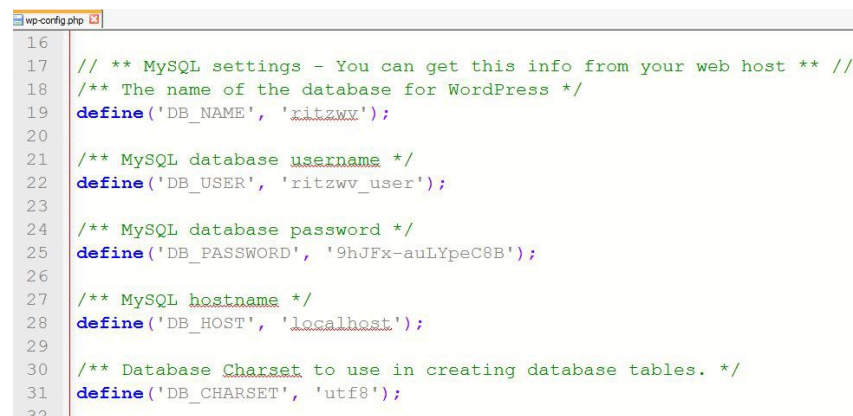

### 2.1 Move File To Server

Move all the existing files to the New Linux server either via the FTP panel or via SSH command Line promot.

### 2.2 Change Database Configuration

On the Root folder a file exist with name "**wp-config.php**". It will look like as given belwo screen shot with bleow server URL:

*/var/www/html/MINK/wp-config.php*

```
16
17 // ** MySQL settings - You can get this info from your web host ** //
18 /** The name of the database for WordPress */
19 define('DB_NAME', 'ritzwv');
20
21 /** MySQL database username */
22 define('DB_USER', 'ritzwv_user');
23
24 /** MySQL database password */
25 define('DB_PASSWORD', '9hJFx-auLYpeC8B');
26
27 /** MySQL hostname */
28 define('DB_HOST', 'localhost');
29
30 /** Database Charset to use in creating database tables. */
31 define('DB_CHARSET', 'utf8');
32
```

### 3 IMPORT DATABASE

In this section , we can understand how we can import the existing database with basic changes before upload.

#### 3.1 Export SQL File

Firstly you need to export your existing database via Cpanel / Phpmyadmin. Also you can make the sql back file using the SSH command line.

#### 3.2 Edit SQL File

Before upload it to the new server you need to change the Common path of the application as per the new Server. You have to open this file in the notepad/notepad++. After that you can make search for table like:

**wp\_options** , **wp\_ehrh\_options**, the last should be **\_options**. Now in this **table** you get two parameters as given below:

1) **home** - paste your app URL like : <http://104.130.26.185/MINK>

2) **siteurl** - paste your app URL like: <http://104.130.26.185/MINK>

Both URL's will be same. It will be used all over the application globally. After updating the above two parameters you need to save this file again.

#### 3.3 Reset Admin Password In SQL File

Before uploading the final SQL file , we can change the admin password in the SQL file in same encryption format that will work in the wordpress. We have used this method to reset the admin's password.

However there are multiple ways to change the passwords, We will explore them in the next section.

#### 3.4 Import SQL File

Now we can import this sql file into the new database. We can import this file either using the phpmyadmin panel or we can use the SSH command line to load this database/file .

We have used the second option SSH command line to import the database on the linux server. Below is the command:

```
[virtual1@wordpressdev html]$ mysql -u air_user -p air < ^Cr201607200309.sql
```

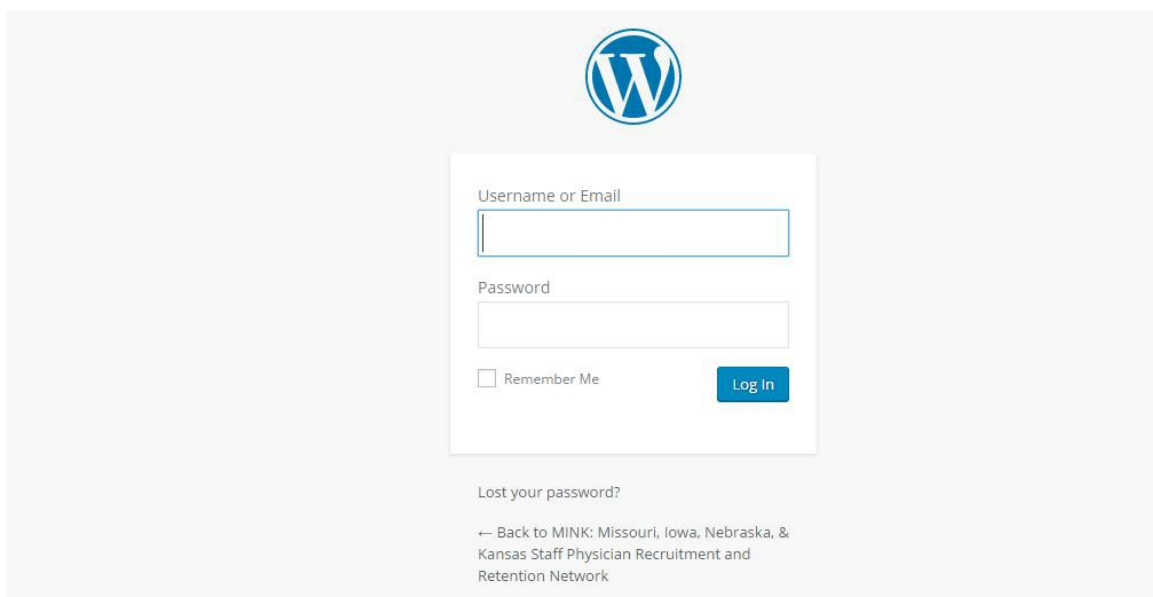

## 4 ALTERNATE WAY TO RESET PASSWORD

### 4.1 Forgot Password Link

We can now reset the admin password by the below link:

<http://104.130.26.185/MINK/wp-admin> . It will look like the screen as given below:

The image shows the WordPress login interface. At the top center is the WordPress logo. Below it is a white login box with a light gray border. Inside the box, there are two input fields: "Username or Email" and "Password". Below the "Password" field is a checkbox labeled "Remember Me". To the right of the checkbox is a blue "Log In" button. Below the login box, the text "Lost your password?" is displayed. Underneath that is a link: "← Back to MINK: Missouri, Iowa, Nebraska, & Kansas Staff Physician Recruitment and Retention Network".

You can click on the link "**Lost your password ?**" and you will receive the email on the email Id that is registered for Admin. In that email there will be instruction to change the password.

### 4.2 By PHP Code

We can change it by the PHP code for the same admin. We can run a manual PHP script to reset the password on server for a particular App.

### 4.3 By SSH Command Line

We can also update the address by the Command line to execute a Query in the SQL. We will use the same encryption method in this query that will work in the wordpress.

## 5 UPGRADE WORDPRESS VERSION

As we are moving with wordpress version 4.5.2 , so if you will update by admin panel dashboard it will give you the option to update the latest version 4.5.3. In this section we will explain the manual upgration of Wordpress for version 4.5.2

### 5.1 Download Wordpress 4.5.2 (Manual Upgration)

Firstly you need to download the worpress version 4.5.2 that we need to update in all the applications. and unzip that file on our local machine.

### 5.2 Upload The Folders

Now we have to copy and replace the below two folder in the existing wordpress setup from the downloaded files for **version 4.5.2**. Folders details are given below:

1) **wp-admin**

2) **wp-includes**

Both folders exist on the root as given bleow path:

**/var/www/html/MINK/wp-admin**

**/var/www/html/MINK/wp-includes**

### 5.3 Upload the Files

Now replace all the files on the root in the exiting wordpress setup from the downloaded file for **version 4.5.2**. Please make sure only one file should not be replaced that is config file as given below:

**/var/www/html/MINK/wp-config.php**

Rest of all the files will be replaced on root as given below path:

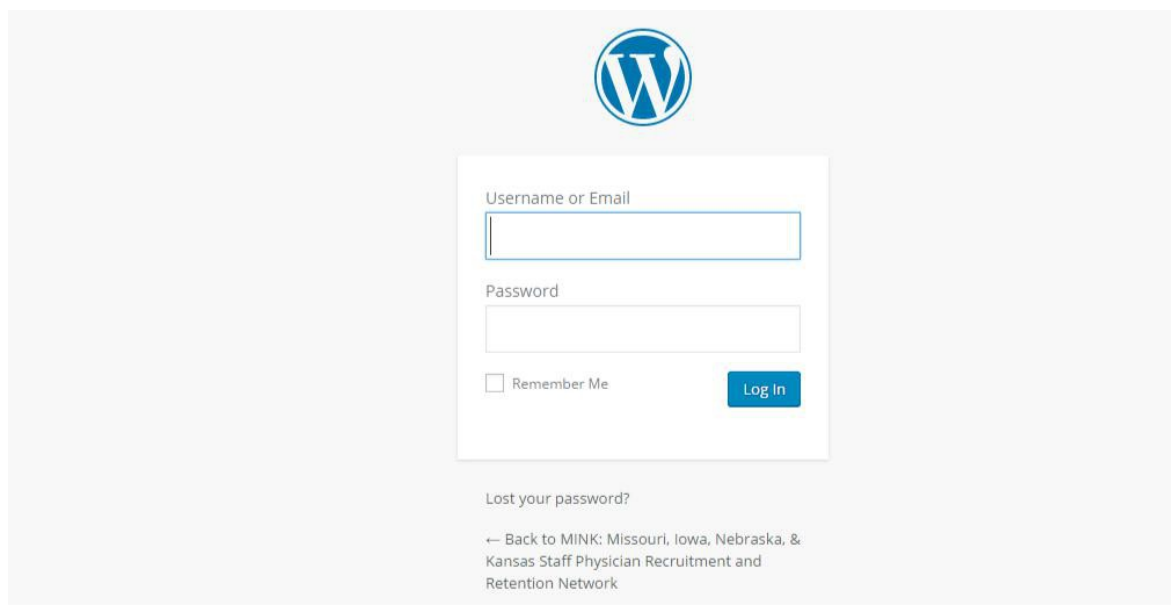

**/var/www/html/MINK/**

## 6 MAINTENANCE MODE (SHUT DOWN/UP APP)

In this section we will cover how we can on the maintainece mode of our appication, in case we are working on that app parallely to fix some bugs.

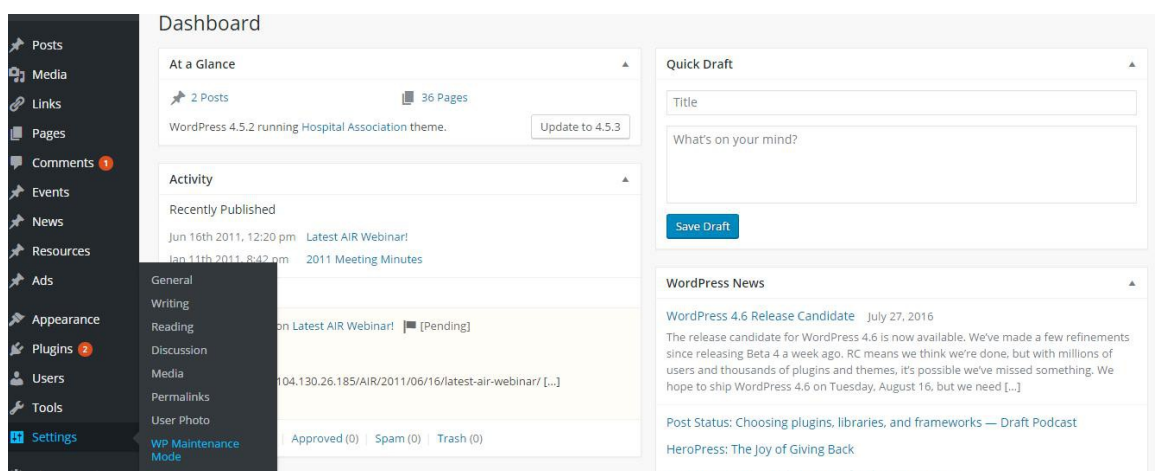

### 6.1 Login In Admin Dashboard

Firstly you need to login in the admin panel as per the given credential that has been shared with you in common Excel. The screen look like as given below:

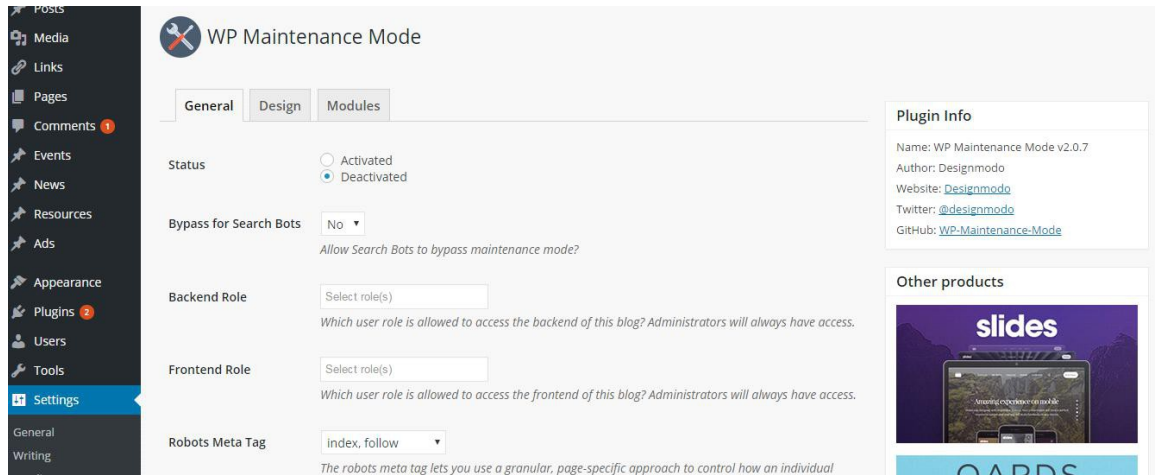

### 6.2 Go To Maintenance Screen

Now in the dashboard section , in the left panel you will see the settings Icon.Under the setting you can see the WP Maintainece Mode as given below in th screenshot:

## 6.3 Manage Settings

Now you can see the Maintinace page settings. There are three tabs are there. It look like the below seceen:

### 1) General Tab

Under the General Tab the very first Label is "**Status**". There are two options Activated & Deactivated. If you choose Activated , It means your app is shut down. You can check the app in that browser where admin should not be logged In.

You can choose Activated or Deactivated. After that under the bottom there is button "**Save Settings**". Click on the Save Setting button for all the changes that you made in the Maintinace settings.

### 2) Design Tab

Under this tab , there is option to change the text that you want to displayed in the app while its under maintinace. Like the Background Color, Text , Heading etc.

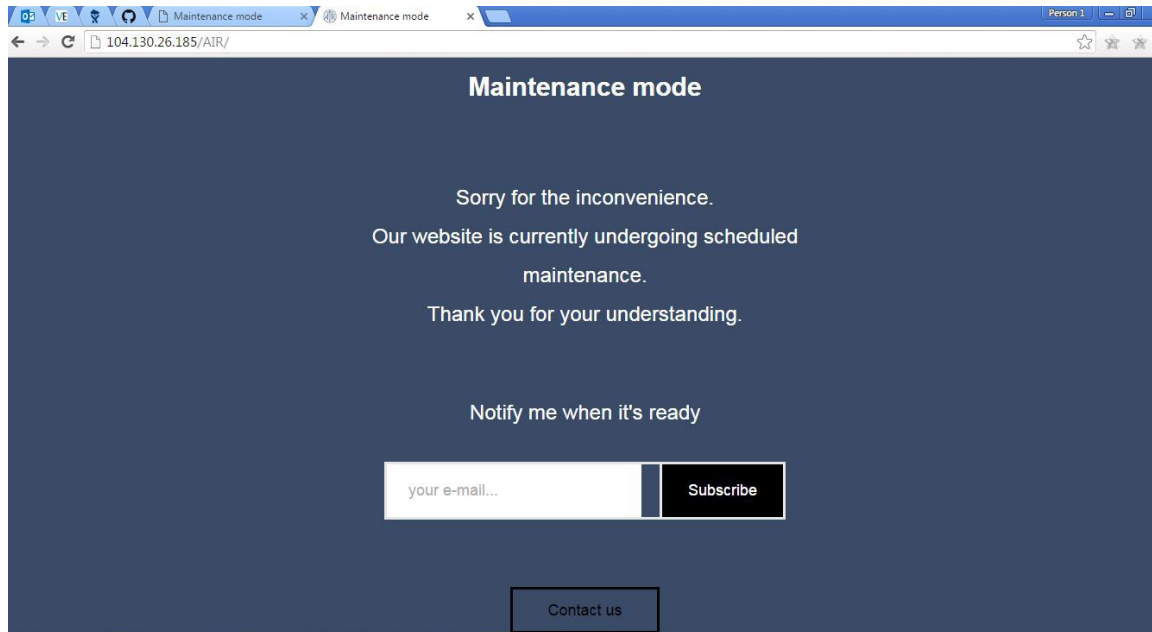

### 3) Modules Tab

Under this Tab, you can use the additional modules while your app is down for the maintinace. Like contact us form , Time Counter , Social networks Icons etc.

To see the effect of all the changes that you made in the Maintinace setting page. Every time you need to click on the "**Save Settings**" to save your changes.

## 6.4 Check Front End View

Your app will be look as below screen if the maintaince Mode is activated by the admin panel. Please be aware this screen will be come only if admin user does not have logged in that browser.

## 7 TEST CASES

### 7.1 Common App Issues

1. Job Search result loading issue(Iframe Issue) on all below websites. We have Fixed the issue of the loading the results if results have many results, we added a scroll bar to see all the results properly.
2. we have correct all the website link that are listing in the member-participating-organization-directory for each website. Now It will open properly however you added the www or not in the webiste link.
3. We have installed the following required modules/extensions on server to run the existing apps:

#### 1.PHP DOM Extension on CentOS

**Command** - yum install php-xml

#### 2.GD module

**Command** - yum install gd gd-devel php-gd

#### 3.Nano Editor

#### 4.Unzip module

**Command** - yum install unzip

### 7.2 MINK App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod
1	MINK	http://104.130.26.185/MINK/	http://104.130.26.185/MINK/privacy-policy/	No content is available for the mentioned issue URL.	Yes
			http://104.130.26.185/MINK/terms-of-service/	No content is available for the mentioned issue URL.	Yes
			http://104.130.26.185/MINK/for-members/	Newsletter error, "Sign Up Now" takes to error page.	Yes
			http://104.130.26.185/MINK/members-only/monthly-newsletters/	MinkNewsJulySM.pdf files not found.	Yes
			http://104.130.26.185/MINK/registrster/	New user registration is disabled issues.	Yes
			http://104.130.26.185/MINK/members-only/monthly-newsletters/	As we click on Newsletter field its take to pdf url. We don't have Prod Application login details to test the exact use case.	Yes

### 7.3 WSPR App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod
1	WSPR	<a href="http://104.130.26.185/WSPR/">http://104.130.26.185/WSPR/</a>	<a href="http://104.130.26.185/WSPR/meetings-events-news/news/">http://104.130.26.185/WSPR/meetings-events-news/news/</a>	No content is available for the mentioned issue URL.	Yes

### 7.4 ISPR App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod
1	ISPR	<a href="http://104.130.26.185/ISPR/">http://104.130.26.185/ISPR/</a>	<a href="http://104.130.26.185/ISPR/about-association/">http://104.130.26.185/ISPR/about-association/</a>	Go to this page <a href="http://104.130.26.185/ISPR/about-association/">http://104.130.26.185/ISPR/about-association/</a> and in the section Member Information click on the <b>click here</b> link. It will redirect to you on this page: <a href="http://104.130.26.185/ISPR/membership-information/">http://104.130.26.185/ISPR/membership-information/</a> and Now go to the How To apply section. the link <b>Kip Aitken</b> not working.	Yes
2	ISPR	<a href="http://104.130.26.185/ISPR/">http://104.130.26.185/ISPR/</a>	<a href="http://104.130.26.185/ISPR/members-only/professional-papers-and-presentations/">http://104.130.26.185/ISPR/members-only/professional-papers-and-presentations/</a>	For the Mentioned Issue URL, many links not working as listed below: <a href="http://104.130.26.185/ISPR/wp-content/uploads/2011/06/AronsonPresentation.ppt">http://104.130.26.185/ISPR/wp-content/uploads/2011/06/AronsonPresentation.ppt</a> (Immigration Presentation by Robert Aronson, ISPR July 2008 Quarterly Meeting) <a href="http://104.130.26.185/ISPR/wp-content/uploads/2012/11/Klara-Presentation.ppt">http://104.130.26.185/ISPR/wp-content/uploads/2012/11/Klara-Presentation.ppt</a>	

## ENHANCEMENT DESIGN DOCUMENT

				<p><b>(Deal or No Deal? Negotiating Agreements from a Physicians Perspective, By Melinda S. Malecki, November 8, 2012)</b></p> <p><a href="http://104.130.26.185/ISPR/wp-content/uploads/2011/06/AronsonPresentation.ppt">http://104.130.26.185/ISPR/wp-content/uploads/2011/06/AronsonPresentation.ppt</a></p> <p><b>(Why Did That Winter Turn Out To Be Such a Loser?, By Klara Sztucinski, Also not working.)</b></p> <p><a href="http://104.130.26.185/ISPR/wp-content/uploads/2012/11/Hospital-Powerpoint.pptx">http://104.130.26.185/ISPR/wp-content/uploads/2012/11/Hospital-Powerpoint.pptx</a></p> <p><b>(Immigration Presentation by Robert Aronson, ISPR July 2008 Quarterly Meeting)</b></p> <p><a href="http://104.130.26.185/ISPR/wp-content/uploads/2011/06/AronsonPresentation.ppt">http://104.130.26.185/ISPR/wp-content/uploads/2011/06/AronsonPresentation.ppt</a></p> <p><b>(Hospital &amp; Physician Relationships in Health Reform Era, ISPR 12th Annual Midwest Recruiter's Conference, November 8, 2012)</b></p> <p><a href="http://104.130.26.185/ISPR/wp-content/uploads/2011/06/Jan_Anderson.ppt">http://104.130.26.185/ISPR/wp-content/uploads/2011/06/Jan_Anderson.ppt</a></p> <p><b>(Physician Recruitment: Legal Problems and Recruitment Policies, by Janice A. Anderson, Esq. – Foley &amp; Lardner LLP)</b></p> <p><b>* All links are not working in prod environment.</b></p>

### 7.5 AIR App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod
1	AIR	<a href="http://104.130.26.185/AIR/">http://104.130.26.185/AIR/</a>	<a href="http://www.aamc.org/publication">www.aamc.org/publication</a>	On home page content, there is link <a href="http://www.aamc.org/publication">www.aamc.org/publication</a> that is not working. Its redirecting to me this page <a href="https://www.aamc.org/publication">https://www.aamc.org/publication</a>	Yes
2	AIR	<a href="http://104.130.26.185/AIR/">http://104.130.26.185/AIR/</a>	<a href="http://104.130.26.185/AIR/">http://104.130.26.185/AIR/</a>	At Home page in Right panel, under the News section, the second link	Yes

## ENHANCEMENT DESIGN DOCUMENT

3	AIR	http://104.130.26	<a href="http://104.130.26.185/AIR/">http://104.130.26.185/AIR/</a>	redirecting to me on this page : <a href="http://m360.aspr.org/admin/forms/ViewForm.aspx?id=43646">http://m360.aspr.org/admin/forms/ViewForm.aspx?id=43646</a> And this page not working. On this mentioned Issue URL Yes
4	AIR	http://104.130.26	<a href="http://104.130.26.185/AIR/meetings-events-news/news/">http://104.130.26.185/AIR/meetings-events-news/news/</a>	.Again in second News redirecting to same URL as mentioned in 2nd point. Also on this link : Webinar Sponsorship Form not working. Same issue on this mentioned Issue URL page as explained in 3rd point . Yes

### 7.6 CAPS App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod
1	CAPS	http://104.130.26.185/CAPS/	http://104.130.26.185/WSPRA/meetings-events-news/news/	In the right sidebar , <b>Meetings and Events &amp; News</b> section both <b>see all</b> links redirection to same Home page. The correct news and meeting event section does not exist in current app	Yes

### 7.7 SWPRA App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod
1	SWPRA	http://104.130.26.185/SWPRA/	http://104.130.26.185/SWPRA/	We have fixed the menu header alignment on the linux server	Yes
2	SWPRA	http://104.130.26.185/SWPRA/	http://104.130.26.185/SWPRA/	The footer links <b>Privacy Policy &amp; Terms of Service</b> have no content to the display .	Yes

# ENHANCEMENT DESIGN DOCUMENT

## 7.8 | Practice Link(PL) App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod
There is no issue on this app.					

## 7.9 | Practice Link(Journal) App Issues

Sr. No.	App Name	App URL	Issue URL	Issue Description	Exist in Prod	Current Status
1	Practice Link (PL)	http://104.130.26.185/journal.practicelink	http://104.130.26.185/journal.practicelink	1. All of the <b>footer links</b> not working  perfectly. they are redirecting to the .NET page that does not exist.	Yes	Fixed the footer links on Dev Server.(As suggested by Laura)

## 8 APPLICATION ENVIRONMENT & TECHNOLOGY

### 8.1 Technology & Tools

<b>Technology</b>	Wordpress (4.5.2) - PHP Version 5.3.3
<b>Hardware</b>	Desktop , Hard Disk , CPU , RAM
<b>Software</b>	FTP , Notepad++ , Putty/Bash
<b>Application Sever</b>	Apache
<b>Database Server</b>	Mysql
<b>Operating System</b>	Linux Environment
<b>Browser</b>	Firefox , Chrome , Safari , Mozilla

## 9 APPLICATIONS PLUGINS, THEMES, TEMPLATES

### 9.1 MINK Application

App Name	Active Plugins Name	Active Plugin Short Description	Active Theme Name	Templates
MINK	Capability Manager	Manage user capabilities and roles.	Hospital Association	<p>[page-about.php] =&gt; <b>About page</b> [page-directory.php] =&gt; <b>Member Directory page</b> [page-for-physicians.php] =&gt; <b>For Physicians Page</b> [page-full-width.php] =&gt; <b>Page:Full Width page</b> [page-left-navigation.php] =&gt; <b>Page:Left Navigation page</b> [page-monthly-newsletters.php] =&gt; <b>Monthly Newsletters page</b> [page-resource-library.php] =&gt; <b>Page: Left Navigation page</b></p>
	Email Login	Allows you to log into WordPress (directly or via XML-RPC) using your email address instead of a(nother) username.		
	Exec-PHP	Executes <?php ?> code in your posts, pages and text widgets.		
	iframe	[iframe src="http://www.youtube.com/embed/A3PDxmYoF5U" width="100%" height="480"] shortcode		
App	Active	Active Plugin	Active	Templates

# ENHANCEMENT DESIGN DOCUMENT

Name	Plugins Name	Short Description	Theme Name	
MINK	User Photo	Allows users to associate photos with their accounts by accessing their "Your Profile" page. Uploaded images are resized to fit the dimensions specified on the options page; a thumbnail image is also generated. New template tags introduced are: <code>userphoto_the_author_photo</code> , <code>userphoto_the_author_thumbnail</code> , <code>userphoto_comment_author_photo</code> , and <code>userphoto_comment_author_thumbnail</code> . Uploaded images may be moderated by administrators.		
	<b>Velvet Blues Update URLs</b>	This plugin <b>updates all urls in your website</b> by replacing old urls with new urls. To get started: 1) Click the "Activate" link to the left of this description, and 2) Go to your <a href="#">Update URLs</a> page to use it.		
	<b>WordPress Importer</b>	Import posts, pages, comments, custom fields, categories, tags and more from a WordPress export file.		
	<b>WP Export Users Plus</b>	Export user's address, city, state, zip, country and phone of users.		
	<b>WP Maintenance Mode</b>	Adds a splash page to your site that lets visitors know your site is down for maintenance. It's perfect for a coming soon page.		

## 9.2 WSPR Application

App Name	Active Plugins Name	Active Plugin Short Description	Active Theme Name	Templates
WSPR	Capability Manager	Manage user capabilities and roles.	Hospital Association	<p>[page-about.php] =&gt;</p> <p><b>About</b></p> <p>[page-directory.php]</p> <p>=&gt;</p> <p><b>Member Directory</b></p> <p>[page-full-width-with</p> <p>search.php]</p> <p>=&gt;</p> <p><b>Page: Full Width with search and directory boxes</b></p> <p>[page-full-width.php] =&gt;</p> <p><b>Page: Full Width</b></p> <p>[page-left-</p> <p>navigation.php]</p> <p>=&gt;</p> <p><b>Page: Left Navigation</b></p> <p>[page-monthly-</p> <p>newsletters.php]</p> <p>=&gt;</p> <p><b>Monthly Newsletters</b></p> <p>[page-resource-</p> <p>library.php]</p> <p>=&gt;</p> <p><b>Page: Left Navigation</b></p>
	Email Login	Allows you to log into WordPress (directly or via XML-RPC) using your email address instead of a(nother) username.		
	Exec-PHP	Executes <?php ?> code in your posts, pages and text widgets.		
	User Photo	Allows users to associate photos with their accounts by accessing their "Your Profile" page. Uploaded images are resized to fit the dimensions specified on the options page; a thumbnail image is also generated. New template tags introduced are: userphoto_the_author_photo, userphoto_the_author_thumbnail, userphoto_comment_author_photo, and userphoto_comment_author_thumbnail. Uploaded images may be moderated by administrators.

	Name		Name	
ISPR	Email Login	Allows you to log into WordPress (directly or via XML-RPC) using your email address instead of a(nother) username.		
	Exec-PHP	Executes <?php ?> code in your posts, pages and text widgets.		
	Export Users to CSV	Export Users data and metadata to a csv file.		
	User Photo	Allows users to associate photos with their accounts by accessing their "Your Profile" page. Uploaded images are resized to fit the dimensions specified on the options page; a thumbnail image is also generated. New template tags introduced are: userphoto_the_author_photo, userphoto_the_author_thumbnail, userphoto_comment_author_photo and userphoto_comment_author_thumbnail. Uploaded images may be moderated by administrators.		
	Users to CSV	This plugin adds an administration screen which allows you to dump your users and/or unique commenters to a csv file. Built with code borrowed from <a href="#">IAM CSV dump</a> .		
	Velvet Blues Update URLs	This plugin <b>updates all urls in your website</b> by replacing old urls with new urls. To get started: 1) Click the "Activate" link to the left of this description, and 2) Go to your <a href="#">Update URLs</a> page to use it.		
	WordPress Importer	Import posts, pages, comments, custom fields, categories, tags and more from a WordPress export file.		
	WP Export Users Plus	Export user's address, city, state, zip, country and phone of users.		
	WP Maintenance Mode	Adds a splash page to your site that lets visitors know your site is down for maintenance. It's perfect for a coming soon page.
